

CLAMSHELLS

Clamshells are custom formed in clear plastic to take the shape of your product but, unlike blister packs, they have two halves that fold together, thus offering both protection and a full view of the product.

- Clamshells can be custom designed to position many components; product, accessories, and advertising.
- Clamshells offer multiple types of closures: built-in, snap lock or heat sealed.
- Clamshells can be designed to hang from a display, stand on a shelf, or be positioned in a display.

Other available products:

- Counter displays
- Floor displays
- Blister Packs
- Trays
- Gift Sets
